IT Support, PC Troubleshooting, System Optimization.

SOFT SKILLS

- Problem Solving
- Teamwork & Independent Work
- Time Management
- Client Communication

LANGUAGES

Malay: Fluent

English: Proficient

PROFESSIONAL SUMMARY

Highly motivated and tech-savvy Game Developer and Multidisciplinary Designer. Equipped with hands-on experience in gameplay programming using Unity 6 and C#, alongside a strong foundation in graphic design, UI/UX, and video production. Proven ability to engineer interactive local co-op experiences and combine creativity with visual communication to produce engaging digital artworks.

GAME DEVELOPMENT PROJECT

Dual Horizon (Final Year Project)

Gameplay Programmer & Designer

- Developing a 3D zombie survival game featuring environments inspired by the university campus.
- Engineered a flexible single-monitor split-screen system for a local co-op experience.
- Programmed core gameplay mechanics, multiplayer systems, and AI behaviors using Unity 6 and C#.
- Integrated low-poly art styles and optimized performance for seamless multiplayer gameplay.

MULTIMEDIA & DESIGN PROJECTS

Graphic Design & Digital Artwork

Visual Communicator

- Produced digital illustrations, branding, and product mockups (including apparel like 'High Culture' t-shirts and packaging).
- Combined creativity with visual communication to produce clean, engaging, and professional designs using industry-standard tools.

UI/UX Project: Obscura Main Menu

UI Designer

- Designed a simple, user-friendly primary interface for game navigation, ensuring players can easily access essential functions like game settings and development credits.

Video Production & Editing

Video Editor

- Directed and edited short films and lyric music videos (e.g., "Bayang di sebalik pintu").
